Artificial Insemination Buck Collection Report

This form is required for all bucks collected and should be sent to MDGA within ten (10) days from the date of each collection. Offspring resulting from the use of such semen will not be registered if this form is not on file with MDGA.

- ❖ The original registration certificate must be presented for tattoo or microchip verification to the processor or the person reading the buck's tattoo.
- ❖ The processor must read the tattoo or microchip on the buck to ensure that the animal being collected is properly identified, then sign below that the buck's tattoos or microchip matches the numbers on the registration papers.
- ❖ The person paying for the collection and owning the resulting semen straws is responsible for the completion and submission of this form.
- ❖ The Processor is responsible for accuracy of the number of semen units.
